The Approach

Describe the scope of work in detail. Please include a summary of key deliverables.

5 stars! Seattle Web Design re-did our website and made it SO MUCH more functional and beautiful! They made sure we were properly set up for SEO (Search Engine Optimization) and took care to make sure that I understood how to properly edit our website so that I do not have to rely on them in order to edit my site. I was thoroughly impressed with the attention to detail and the amount of education/training I got along the way. Highly recommend!

The Outcome
